Dear Client or Collaborator:

Thank you for counting on us, it will be a pleasure to serve you and collaborate with you, to meet your business needs.

In this catalogue, you will find a wide variety of everyday consumer products.

- The prices of the products may be offered in EXW, FOB and CIF terms, depending on the type of client's request; To do this, you must choose the type of product you are interested in and contact our commercial department so that we can send you a firm offer.

- Offers are issued within 72 hours on working days, in some cases it may take a little longer, depending on the manufacturer and the availability of the product.

- The brands and formats indicated in this offer are only for the customer to identify the product and orient themselves, they may vary, depending on the manufacturer, this is possible because before sending you our best offer we make several inquiries to identify the product you need at the best possible price.

The valuation of the transport to the destination may vary, it depends on the shipping company, in case of firm interest in the purchase, we will send the buyer an exact price of the product, including all shipping costs, or the buyer can hire the transport service.

When we send an offer, the prices offered are direct from our factories, they do not include any surcharge for commissions, or costs, this is possible because our organization acts as a sales department within the manufacturer's organization.

We work with TOP 25 Banks, therefore the client's payment is safe, our banks only carry out serious and safe operations, we accept payments by means of bank transfer (T/T), or payments with bank instruments LC MT700 or SBLC MT760. Our reference bank is Banco de Santander, S.A.

For distributors interested in working with our products and brands exclusively, we have several commercial and economic advantages:

- Depending on the type of product and brand, we can negotiate exclusive distribution for our brands and products, under a commercial distribution agreement in the country of destination.

- We can provide support in marketing, for the introduction of products and brands, in supermarket chains and the horeca channel.

- We can support with commercial actions and product tasting.

- We can support you in the presentation of the products in fairs and specialized events in the country of destination.

- We can study the payment deferred to 30, 60 and 90 days, subject to prior consultation with the credit and surety insurance company, which will assess the commercial and economic capacity of the client and the destination country risk.

Private Label:

If the buyer has his own brand, we can label the product with his brand, in this case the conditions for product labeling will be negotiated, which include the minimum quantity, supply period and payment method, in any case if the customer If you wish to use your own brand, you must deposit the amount that corresponds to its printing services, paying in advance the amount of the labels or packaging.

The rest of the indications and procedures will be submitted to the client in writing in a firm offer, once an LOI, ICPO or Purchase Order has been received.

- If you have any additional questions, do not hesitate to contact us, we will answer you without obligation.

- Our company works for you, offers a serious service, and asks the client to respect our work, we are open to listen to you, to help you find solutions, but you must understand that we have limitations, and that it is the client who usually conditions the decisions. purchase orders, if you delay your responses, if you do not have the financial capital, or if you have impediments that condition the purchase operation, we ask for your sincerity, and we will endeavor to help you find solutions.

- If you need financial advice, we can guide you to see the possible options that may exist, contact us and we will offer you a personalized service tailored to your needs.

You can have the confidence of negotiating with a serious company, with 43 years of experience in the foreign market, which is esteemed, respected and appreciated by a large number of clients around the world, which officially represents more than 70 manufacturers from various countries.

We hope that our offer is of interest to you.

A cordial greeting.
Sincerely,

Julio Suárez Rodríguez
International CEO.

Estimado Cliente o Colaborador:

Gracias por contar con nosotros, será un placer poder atenderlo y colaborar con usted, para atender sus necesidades comerciales.

En el presente catálogo, usted encontrará una amplia variedad de productos de consumo habitual.

- Los precios de los productos podrán ser ofertados en términos EXW, FOB y CIF, dependiendo del tipo de solicitud del cliente; para ello usted debe elegir el tipo de producto que le interesa y contactar con nuestro departamento comercial para que le enviemos una oferta en firme.

- Las ofertas son emitidas en un plazo de 72 horas en días laborables, en algunos casos puede tardar algo mas, depende del fabricante y de la disponibilidad del producto.

- Las marcas y formatos indicados en la presente oferta son solo para que el cliente identifique el producto y se oriente, pueden variar, dependiendo del fabricante, esto es posible porque antes de enviarle nuestra mejor oferta realizamos varias consultas para identificar el producto que usted necesita al mejor precio posible.

La valoración del transporte a destino, puede variar, depende de la naviera, en caso de interés en firme para la compra, enviaremos al comprador un precio exacto del producto, incluyendo todos los costes de envío, o el comprador puede contratar por su cuenta el servicio de transporte.

Cuando enviamos una oferta, los precios ofertados son directos de nuestras fábricas, no incluyen ningún recargo por comisiones, o sobre costes, esto es posible porque nuestra organización actúa como departamento de ventas dentro de la organización del fabricante.

Trabajamos con Bancos TOP 25, por lo tanto el pago del cliente es seguro, nuestros bancos solo realizan operaciones serias y seguras, aceptamos pagos por medio de transferencia bancaria (T/T), o pagos con instrumentos bancarios LC MT700 o SBLC MT760. Nuestra entidad bancaria de referencia es el Banco de Santander, S.A.

Para los distribuidores interesados en trabajar nuestros productos y marcas en exclusiva disponemos de varias ventajas comerciales y económicas:

- Según el tipo de producto y marca, podemos negociar distribución en exclusiva para nuestras marcas y productos, bajo contrato de acuerdo comercial de distribución en el país de destino.
- Podemos suministrar apoyo en marketing, para la introducción de los productos y marcas, en cadenas de supermercados y del canal horeca.
- Podemos apoyar con acciones comerciales y degustación de productos.
- Podemos apoyarlo en la presentación de los productos en ferias y eventos especializados del país de destino.
- Podemos estudiar el pago aplazado a 30, 60 y 90 días, supeditado a previa consulta a la empresa aseguradora de crédito y caución, que valorara la capacidad comercial y económica del cliente y el riesgo país de destino.

Marca Privada:

Si el comprador dispone de su propia marca, podemos etiquetar el producto con su marca, en este caso se negociarán las condiciones para el etiquetado del producto, que incluyen la cantidad mínima, periodo de suministro y forma de pago, en cualquier caso si el cliente desea utilizar su propia marca, debe depositar el importe que corresponde a los servicios de impresión de la misma, abonando por adelantado el importe de las etiquetas o embalajes..

El resto de indicaciones, y procedimientos se enviarán al cliente por escrito en oferta en firme, una vez recibida una LOI, ICPO u Orden de compra.

- Si tiene alguna consulta adicional, no dude en contactarnos, le responderemos sin compromiso.

- Nuestra empresa trabaja para usted, ofrece un servicio serio, y pide al cliente el respeto por nuestro trabajo, estamos abiertos a escucharlo, a ayudarlo a buscar soluciones, pero debe entender que tenemos limitaciones, y que es el cliente el que suele condicionar las órdenes de compra, si usted retrasa sus respuestas, si usted no dispone del capital financiero, o si tiene impedimentos que condicionan la operación de compra, le pedimos sinceridad, y nos esforzaremos en ayudarlo a buscar soluciones.

- Si usted necesita asesoramiento financiero, podemos orientarlo para ver las posibles opciones que puedan existir, contacte con nosotros y le ofreceremos un servicio personalizado a su medida.

Usted puede tener la confianza de estar negociando con una empresa seria, con 43 años de experiencia en el mercado exterior, que es estimada, respetada y apreciada por una gran cantidad de cliente en todo el mundo, que representa de forma oficial a más de 70 fabricantes de diversos países.

Esperamos que nuestra oferta sea de su interés.

Un cordial saludo.

Atentamente,

Julio Suárez Rodríguez
International CEO.

PARAMETER CHEMICAL SPECIFICATIONS RED SPLIT LENTILS

The standards that the products comply: With the international food standard Codex, premium grade.

The Usage and consuming type: It should be cooked before consuming.

Consumer group: For every consumer.

Packing and transfer conditions: The products are put in 1,000,00 gr, 2,500,00 gr., 3,000,00 gr. 5,000,00 gr.

Packages and PP 10,00 Kg, 25,00 Kg, 50,00 Kg, PP bags.

The goods are stored and transferred according to the transfer storage and packing instruction (UR.TA--33)

Shelf Life: Two Year

Storage conditions: At normal room temperature, cool and dry place without sun light.

Sensorial Characteristics: Red lentil must uniform size, well dried and must have color and taste specific for red lentil. Must not contain live or dead insects, Moulds, chemical material residues and wetness. There must not exist any Vicia sativa and B-eyanoalanine. It must be polished with a appropriate amount of oil edible oil.

The product is: NON GMO

Ingredient: Only pure red lentils

Analyze Period: At least twice a day. Visual controls are made every hour. If there seems any problem analyses period is increased

SUGAR ICUMSA 45

ICUMSA 45 is a highly refined sugar, it is easily recognized by its bright white color and pure sucrose taste. Its use is for human consumption, and industrially processed foods and beverages.

It is a product elaborated from the process of refinement by means of which bacteria and contaminants present in raw sugars are eliminated. ICUMSA 45 is the most consumed sugar in the world.

The quality of the sugar is determined by a system devised by the International Commission for Uniform Methods of Analysis (ICUMSA), which is an international body seeking to standardize the measures used to describe sugar.

ICUMSA grades are based on tests that determine the exact scale of the whiteness and purity of the sugar, and turn it into a numerical reading. Sugar is tested according to a whiteness scale. For ICUMSA sugar the whiter it is, the better its refining process has been.

BROWN SUGAR IC 600 – 1200

Its flavor is more intense, granulometry is greater than that of white sugar, with a darker color, more intense, has a lower number of calories per hundred grams, standing at around 375 kilocalories.

It has a greater amount of water, which makes it more comfortable to use in different industrial processes. This is due to the hygroscopic nature of the molasses it contains.

It is a non-perishable, so they can be kept for a long time with just keep them in a cool and dry place.

It has a lower amount of sucrose than white sugar, 95% and the dark color of brown sugar is added after the refining process.

TURBINED SUGAR

It is a type of brown sugar, as such, its processing is industrial, and is obtained from the crystallization of the juice of sugar cane and after passing through a centrifuge that eliminates impurities and regularize the final product, this being the main difference with the purest and natural sugars.

Turbined sugar has a washing and spinning process for its crystallization, which although it does not present chemicals, causes that nutrients are lost, these treatments make the grains are loose and perhaps it is a reason why it consumes more than purer sugars and natural, and therefore irregular and with more moisture between its crystals.

Although it does not have all its properties, we are faced with a sugar with many more nutrients than white sugar, which by being refined, all it brings are empty calories.

POLAND ORIGIN

TECHNICAL DATA SHEET INSTANT WHOLE MILK POWDER 26% FAT - 10% PROTEIN	
Description: INSTANT WHOLE MILK POWDER is an instant whole milk powder resulting from the removal of water from liquid milk and contains lactose, milk proteins and milk minerals in the same relative proportions as in the fresh milk.	
Composition: fresh milk, milk constituents, fat, E-222.	
PHYSICAL CHARACTERISTICS	
Appearance	Homogeneous solid powder. Uniform particle.
Colour	Yellowish white.
Odour	Dairy characteristic.
Flavour	Milk, sweet and creamy characteristic.
TECHNICAL CHARACTERISTICS AND MICROBIOLOGICAL ANALYSIS	
Fat	26.1%
Crude Proteins	10.21%
Lactose	>35%
Humidity	3.5% ? 1
Digestibility	97-98%
Solubility	98-99%
Count Coliform	Absent
Count Yeast and Mold	Maximum 200 UFC/g
Total Plate count	Maximum 10.000 UFC/g
Salmonella Detection /25g	No
Listeria monocytogenes Detection/25g	No
Best before date: 1 year from date of manufacture.	
Allergy Alert: Lactose and milk proteins.	
How to use: Mix 100g-130g of the Instant Whole Milk powder with 1000ml of cold water and stir until completely dissolved. Allow the mixture to stand for at least 20 seconds and then you can taste.	
Type of packaging: The product comes in bags fit for human consumption of 25Kg. For other packages, please inquire.	
Storage Conditions: Store in an airy place, away from heat and moisture. If the product is humidity> 75% could cake after 1 year from the date of manufacture.	
Threat level:	
Skin contact: Harmless.	
Eye Contact: Causes irritation.	
Inhalation: Causes mild discomfort.	
Ingestion: Innocuous though it may cause some temporary discomfort if ingestion is abundant. It creates no risk because it is not toxic.

Vegetable Milk Powder with Vegetanilina

VEGETABLE MILK

Healthier: Free of cholesterol being unsaturated vegetable-based fats.
99% Digestibility
Durability: Expiry date 12 months from production date
99% Solubility

Advantages Milk4life regarding milk powder animal.

- Taste and smell equivalent to fluid milk of animal origin.
- VEGETANILINA
- Flexibility: formulation "Taylor-made" MILK4LIFE, depending on each client's needs.
- Packaged according to the customer requirements.
- Major production capacity: up to 50.000Tn/monthly
- Stability in costs: stable Annual Rates According to the raw material cost.
- Quality and Safety: with maximum health and quality controls.
- Manufacturing process accredited by the ISO 9001:2008

Milk4life, prepared food in powder flavour and odour similar to the cow's milk, healthy and easy digestion, long shelf life and high solubility. This is a perfect vegetable milk substitute for powdered animal origin milk.

Milk4life's advantages regarding powdered animal origin milk.

- Equivalence between Milk4life and milk powder of animal origin.
- Nutritional analysis equivalent to animal milk powder.
- All nutrients (protein, fat, carbohydrate carbon) contained in the original milk Animal powder are in the new MILK4LIFE milk plant.
- Physical characteristics equivalent to the powdered animal origin milk.
- Possibility of a vitamin and mineral composition equivalent to powdered animal origin milk.

Powdered whole milk's Substitute (*)

Powdered vegetable origin milk with 15 % protein and 26 % fat.

Powdered vegetable origin milk with 24% protein and 26 % fat with calcium and vitamins A and D. Powdered vegetable origin milk with 24% protein and 26 % fat.

MILK4LIFE ** is also available free of gluten and lactose Powdered skim milk's substitute (*)

Powdered vegetable origin milk with 15 % protein and 1 % fat. Vegetable milk powder with 26 % protein and 1 % fat.

MILK4LIFE ** is also available free of gluten and lactose

Powdered skim milk substitute for children and youth development (*) start-up powdered vegetable origin milk (from 0 to 6 months), which contains all the necessary nutrients (vitamins and minerals) for optimal development in the early stages of the baby's growth development.

Second stage powdered vegetable origin milk (fro, 6 to 12 months), which contains all the necessary nutrients (vitamins and minerals) for optimal development on babies' continuation phases.

third stage powdered vegetable origin milk (from 12 to 18 months), which contains all the necessary nutrients (vitamins and minerals) for optimal development on babies' continuation phases.

MILK4LIFE ** is also available free of gluten and lactose E: unscented
S: milk's aroma
A: mixture of dairy flavors A + : natural milk flavors

Variety in Dairy Products

UHT Milk

- Produced on the modern plant of infant milk food
- Product quality is ensured by technologically advanced Tetra Pak equipment
- Tetra Pak packaging consists of six layers, which protect the product from the dangers of the external environment: air, light (UV), moisture, bacteria
- Milk of the highest quality
- The maximum of nutrients are saved in milk
- Due to the peculiarities of production, does not contain pathogenic bacteria and their spores
- Convenient cap allows you to repeatedly open and close the product

Vitamin-enriched Milk

(baby food)

Excellent for Children sterilized vitamin-enriched cow milk is a product of the highest quality, developed specifically for children of early age. Vitaminized milk formula meets children's daily requirements in proteins, calcium and vitamins. The product is manufactured from selected whole cow milk, which undergoes cleaning with a bacteriophage, heat treatment, normalization of fat, and is additionally enriched with vitamins A, D, E.

Excellent for Children milk has homogeneous structure and clear milky smell and taste. The colour is white, homogeneous within all the mass, with light creamy hint.

The product is intended for children aged 9 months and up as complementary food, and also in diluted form as a basis for dairy meal preparation for children, aged 6 months and up.

UHT Milk 2,6%/950g - UHT Milk 3,2%/950g

Ready-to-eat dairy porridges

(children's food)

Porridges for Children® presents novelties — ready-to-eat dairy grain porridges as supplementary food for children aged from 6 months with rice, buckwheat and wheat.

- The porridges are ready for consumption: you can open and drink them at once.
- They are manufactured at the plant, which products have the license for export to the EU.
- Long shelf life is possible due to Tetra Pak package and special production techniques.
- Halal certified.

SWEET CREAM BUTTER

Sweet-cream butter 73% /200g - Sweet-cream butter extra 82,5% /200g

The flavor is pronounced creamy, without foreign tastes and odors.

Texture is dense, ductile, homogeneous.

Color of the butter is light yellow to yellow, homogeneous throughout the mass.

SOFT CHEESE MOZZARELLA

Packed 2,5-5 kg (block type)

Soft cheese Mozzarella *Milenita* is made on the modern equipment from cow's milk with adding bacterial starter culture, microbial enzyme preparation and salt. This product can be produced with 40%, 45%, and 50% fat in dry matter.

Mozzarella *Milenita* is available in 5 kg and 2.5 kg blocks packed in vacuum film without brine, and is sold in frozen form. The product's storage life without losing its properties is up to 12 months at a temperature from -20°C to -15°C. After defrosting Mozzarella can be stored in the refrigerator for up to 1 month.

Soft cheese Mozzarella *Milenita* has ductile consistency, homogeneous, layered and elastic structure and delicate, neutral taste inherent in classic mozzarella. This product is ideal to use in HORECA and is especially good for cooking Italian food: pizza, lasagna, different salads, casseroles, bakeries and other dishes.

Mozzarella baking time for cooking pizza is 5 min in an oven at 230°C.

Product name	Fat in dry matter, %	Form, weight	Packaging size, cm
--------------	----------------------	--------------	--------------------

Soft cheese Mozzarella	40 / 45 / 50	block, 5 kg	28x14x10
	40 / 45 / 50	block, 2.5 kg	28x7x10

Storage conditions		
Relative humidity	Temperature	Time of storage
up to 80%	-20...-13°C	12 months*
(85-95%)	-4...0°C	6 months
	0...+6°C	4 months

* After defrosting the cheese must be sold at a relative humidity of 80% and a temperature between 0°C and +4°C for up to 30 days.

Packed 2,5-5 kg (block type)

CHEDAR CHEESE

Hard cheese "Cheddar" - 45%

Appearance: the surface of the cheese is clean. The crust is smooth, thin, without damage and thick subcortical layer. Taste and smell: moderate cheesy, slightly sour, without foreign tastes and odors.

Consistency: elastic, soft, slightly dense, homogeneous throughout the mass. There are slit-like and angular shape holes on a cut. Color is from light yellow to yellow, uniform throughout the mass.

Hard cheese "Gouda" - 45% Bar 4 kg.
Cheese "Provollone" - 45% , 0,18-0,3 kg
Cheese "Provollone" smoked , 0,18-0,3 kg
Hard cheese Parmesan Young - 40% Bar 4 - 6 kg
Hard cheese Parmesan OLD* - 40% Bar 4 - 6 kg

Hard cheese "Mozzarella" - 45% (frozen)

KING GOURMET CHEESE

with baked milk flavor

Flavor: pronounced cheesy, slightly sweet, with baked milk flavor. Texture: tender, elastic and slightly heavy. There are slit-like and irregular holes on a cut. Color: yellow and smooth.

PARMENTAL CHEESE Parmesano

Parmental refers to a group of hard cheeses like young Parmesan and has unique pronounced cheesy flavor, formed in the process of long ageing, which continues at least 2 months. Consistency is elastic, tender, uniform within the whole surface. Usually has no holes, but single ones are acceptable. Color ranges from white to light-yellow, uniform within the whole surface.

GRATSIA CHEESE

Flavor: moderate cheesy. Texture: heavy and tough enough. Color: varies from white to light yellow and smooth. There is a pattern with single oval, angular or slit-like holes on a cut. It can be without any pattern.

RUSSIAN CLASSICAL CHEESE

Flavor: pronounced cheesy, slightly sour, without foreign flavor. Texture: can be slightly heavy; tender, plastic, smooth dough. Color: varies from light yellow to yellow and smooth. The pattern is smooth with irregular, angular or slit-like holes.

ZVENIGORODSKY CHEESE

Flavor: moderate cheesy, slightly sharp. Texture: tender, plastic, smooth dough. Color: varies from light yellow to yellow and smooth. The pattern is smooth with irregular, angular or slit-like holes.

KOSTROMSKOY CHEESE

Flavor: moderate cheesy, slightly sour. Texture: tender, plastic, smooth dough. Dough color: yellow and smooth. There is a pattern with single round or oval holes, smooth and can be sometimes missing.

POSHEKHONSKY CHEESE

Flavor: moderate cheesy, slightly sour. Texture: tender, plastic, smooth dough. Dough color: varies from light yellow to yellow and smooth. There is a pattern with single round or oval holes which can be sometimes missing.

MRAMORNY (MARBLE) CHEESE

Flavor: moderate cheesy, varies from slightly sweet to sharp. Texture: tender, plastic, smooth dough. Dough color: "marble" white and yellow pattern, smooth. There can be angular, oval or irregular holes on a cut.

MAASDAMER CHEESE

Flavor: pronounced cheesy, slightly sharp and spicy. Texture: tender, plastic dough. Dough color: varies from light yellow to yellow and smooth. There is a pattern with round or oval holes on a cut.

EMMENTAL CHEESE

Flavor: pronounced cheesy, slightly sweet and spicy, without foreign flavor. Texture: tender, plastic, slightly crunchy dough. Dough color: varies from light yellow to yellow. There is a pattern with oval and angular holes on a cut.

GAUDA CHEESE 4 Kg. Bar

Flavor: moderate cheesy, varies from slightly sweet to sharp, without foreign flavor. Texture: plastic, tender, smooth dough. Dough color: varies from white to yellow. There is a pattern on a cut with single round or oval holes which can be sometimes missing.

GOLLANDSKY BAR-SHAPED CHEESE

Flavor: pronounced cheesy, sharp and slightly sour. Texture: plastic dough, slightly crunchy on a bend. Dough color: varies from white to light yellow. There is a pattern on a cut with single round or oval holes.

SMETANKOVY CHEESE

Flavor: pronounced cheesy, slightly sweet. Texture: tender, plastic, slightly crunchy dough. Color: varies from light yellow to yellow. There is a pattern with oval and angular holes on a cut.

SLIVOCHNY (CREAMY) CHEESE

It differs with moderate cheesy flavor. Texture is tender and elastic. Color varies from light yellow to yellow and smooth. There are slit-like and irregular holes on a cut.

MOZZARELLA UKRAINIAN CHEESE

Flavor: sour-milk, moderate salt. Texture: elastic with light grading effect. Dough color: light yellow and smooth. There is no pattern.

SULGUNY CHEESE

Flavor: clean sour-milk, moderate salt. Texture: deadish and plastic dough. Dough color: light yellow and smooth. There is no pattern.
