The El Menú Gold Series is the outcome of a delicate production process that follows the artisanal procedures learnt by the company's founders, along with more modern techniques.

From the fishing and selection of prime pieces, through the salting, pressing, maturing and preservation, and onto the preparation of one or two fillets by expert hands and preservation in olive oil, Gold Series anchovies are indicative of El Menú's passion for a job well done.

The quality of El Menú's Gold Series Mediterranean anchovies, white anchovies and sardines allows them to be enjoyed in many different ways: as hors d'oeuvres, entrées or in the most sophisticated of recipes. However, nothing beats eating them straight out of the can, with a slice of good bread.
