

# Digestive

Soluble infusion for children

## ► Benefits

**bio3** Digestive is a soluble infusion especially for breast-fed babies and children. Made from wild camomile flower heads and fennel.

## Action

**bio3** Digestive is an instant infusion, made from camomile and fennel extracts. Used for gas release, wind, flatulence, the camomile properties release the digestive discomfort and produce a tranquilizing effect.

## How to use it

Disolve **bio3** Digestive in water, hot or cold. It is not necessary to add sugar.

Recommended doses for babies and children:

Until 2 months old: stick in 50ml of water.  
From 2 until 6 months old: 1 stick in 100ml of water.  
From 6 until 12 months old: 2 sticks in 100ml of water.  
More than 1 year old: 4 sticks in 200 ml of water.

## Ingredients

Soluble extracts of Camomila..... 4%  
Soluble extracts of Fennel.....3,5%

## Presentation

Sticks are hermetically sealed to guarantee their quality and hygiene 100%.
