# ***Key selling points***

## **PROPERTIES IN EXCEPTIONAL LOCATIONS**

5 properties with 550 ha. of vineyards. Due to that fact, we are able to plant the different grape varieties according to their specific needs, taking into account key factors such as altitude, sun exposure and humidity. Our wines are very characteristic of the “terroir”.

## **TRADITION+TECHNOLOGY**

Our high end Port wines are made the traditional way, trodding the grapes by foot. Our DOC still wines are produced using the most modern winemaking technologies. We follow different winemaking styles for both wines but the common goal is achieving excellence. Maturation in wood is done with the only intention of adding extra layers of flavour and complexity to the wines, never overcoming the grape aromas and flavours.

## **WIDE RANGE OF WINES**

We have a big range of still and Port wines, mainly focusing on Special Categories, in the case of Ports, and high-quality estate-bottled DOC wines in the case of still wines.

## **INTERNATIONALLY AWARDED WINES**

Our wines have been internationally recognised, a fact that encourages us in our pursue of excellence.
